How to determine if your vehicle is SmartWay Elite

2. Select the correct drop down option for your vehicle’s year, state, and class. Then click the search button.

3. Find your vehicle in the list that appears after you click search and select the link for the correct model.

4. The page that appears will have several tabs across the top. It defaults to the Fuel Economy tab, so click the one for Energy and Environment that you see highlighted blue below.

</tbody>
</table>

**Energy Impact Score**

- **Annual Petroleum Consumption**
  - U.S. barrel
  - Imported barrel
  - 1 barrel = 42 gallons

- **Regular Gasoline**: 14.3 barrels

**Greenhouse Gas Emissions**
5. As you scroll down, there will be two blue/black gauges, one for Greenhouse Gas Emissions and the other for EPA Smog Rating. **Those are the two factors that we consider for qualifying vehicles.** Under the EPA Smog Rating section, be sure Maryland is selected in the drop down menu, and then view the icon to the right of it. The vehicle in the example below is Certified SmartWay, **but not** SmartWay Elite; this vehicle does not qualify for the Green Permit discount.

- **Energy Impact Score:**
  - **Annual Petroleum Consumption:**
    - U.S. barrel
    - Imported barrel
  - 1 barrel = 42 gallons
  - **Regular Gasoline:** 14.3 barrels

- **Greenhouse Gas Emissions:**
  - **Units:** U.S. tons per year
  - **Show:** Tailpipe & upstream GHG, Upstream, Tailpipe
  - For model years 2012 and earlier, tailpipe CO2 is estimated using an EPA emissions factor and does not reflect direct test results.

- **EPA Smog Rating:**
  - **State of purchase:** Maryland
  - **ULEV II 7HNXT02 4FRK**
6. Qualifying vehicles will display the following, showing *Elite* just below the SmartWay distinction.
